

January 24th, 2022

My Dear Friend,

The next deadline of the **Erasmus+ Programme is set on the 23rd of March 2022 at 12:00:00** and I'd like to participate in the Programme as **Prometeo** did in the past. **Prometeo** is quite good in writing projects and in fulfilling application forms but in Italy there are not so many chances to have projects approved (the threshold value this year was 92 for adult education and 88 for VET), so we're always looking for a Coordinator in a different EU country.

Last year we tried to get a project approved but unsuccessfully, and I'd like to ask you all to be confident again and start thinking about a new and updated version of the same project or think to a new one as we know the priorities of the EU with the E+ programme:

Inclusion and diversity in all fields of education, training, youth and sport: the Programme will support projects that promote social inclusion and aim at improving the outreach to people with fewer opportunities, including people with disabilities and people with a migrant background, as well as people living in rural and remote areas, people facing socio-economic difficulties or any other potential source of discrimination based on sex, racial or ethnic origin, religion or belief, disability, age or sexual orientation.

Environment and fight against climate change: the Programme aims to support, across all sectors, awareness raising about environmental and climate-change challenges. Priority will be given to projects aimed at developing competences in various sustainability-relevant sectors, developing green sectoral skills strategies and methodologies, as well as future-oriented curricula that better meet the needs of individuals.

Addressing digital transformation through development of digital readiness, resilience and capacity: The Programme will support digital transformation plans of primary, secondary, vocational education and training (VET), higher, and adult education institutions. Priority will be given to projects aiming to increase the capacity and readiness of institutions to manage an effective shift towards digital education.

Common values, civic engagement and participation: The Programme will support active citizenship and ethics in lifelong learning; it will foster the development of social and intercultural competences, critical thinking and media literacy. Priority will also be given to projects that offer participation in democratic life, social and civic engagement through formal or non-formal learning activities.

If You think that we can choose one of these priorities, please let me know in order to start planning a new partnership (maybe with the old ones) and a new adventure for the next two or three years.

I'm confident we can find a way to work together in the future.

Sincerely,

Carlo Smaldone Villani
